

MOTOR CLEANER

Cold Cleaner for Oily Contaminants

Description

Motor Cleaner is a solvent as well as a cleaning product, based on an aliphatic fluid, completed with emulsifiers and tension-active additives.

This product:

- can be emulsified with water
- is explicitly suitable for the efficient removal of oily and greasy contaminants and asphalt pollutions
- suitable to be used in high pressure steam cleaners
- cleans engines, machines and workshops
- removes efficiently the paraffinic protection of bodyworks

Quality level

ISO 6743/10

Available in

Cartons of 24x1 and 6x5 L.
Barrels of 30, 60 and 208 L.

Application

Motor Cleaner is extremely suitable for the cleaning of machinery, engines and workshops and for removing paraffinic protection of the bodywork. Can be used in high pressure steam cleaners.
